CLASS OBSERVATION FORM

NAME OF NSTP FACULTY:	
STATUS:	
DATE OF OBSERVATION:	
CLASS OBSERVED:	
TERM AND ACADEMIC YEAR	

Instructions: Please rate the faculty based on the level of performance he/she exhibited during the class observation.

LEVEL OF PERFORMANCE	
7	TRULY EXCEPTIONAL
6	EXCELLENT
5	EXCEEDS EXPECTATION
4	MEETS EXPECTATION
3	FAIRLY SATISFACTORY
2	UNSATISFACTORY
1	VERY UNSATISFACTORY

CLASSROOM OBSERVATION	
LEARNING PROCESS	
The learners are engaged to think deeply with and about the important concepts and theories.	
The learners have opportunities to create and generate new ideas.	
The learners are engaged in pair and group activities.	
The learners use their problem-solving, critical thinking, and other higher order thinking skills in real-life contexts.	
The learners are provided opportunities to communicate accurately, appropriately, and meaningfully.	
The learners are provided opportunities to reflect on their learning.	
INSTRUCTIONAL DELIVERY	
The teacher clarifies the learning outcomes.	
The teacher aligns the learning outcomes with the institutional and program learning outcomes.	

The teacher connects the lesson to real-life contexts.	
The teacher adjusts his or her teaching style and approaches to different learners.	
The leader adjusts his or her teaching style and approaches to different flexible learning modalities.	
The teacher asks questions that require critical thinking.	
The teacher uses a variety of learning resources and materials appropriate for flexible learning.	
The teacher integrates appropriate technology that enhances the teaching-learning process.	
The teacher employs activities and delivers instructions using technology with appropriate level of complexity.	
The teacher adapts the syllabus to flexible learning environment.	
The teacher breaks the complex topics into small digestible sessions.	
The teacher makes the learning materials available offline and online.	
ASSESSMENT	
The learning outcomes have corresponding integrative (i.e., activities that target multiple learning outcomes) and independent learning activities and assessment.	
The assessment tasks simulate real-life contexts relevant to the learning outcomes.	
The teacher assesses learners' misconceptions and current skills and knowledge (diagnostic assessment, comprehension checks) necessary for instructional planning and delivery.	
The teacher focuses on performance tasks, projects and other alternative forms of assessments (e.g., portfolios, projects, reflection papers and oral interviews) using appropriate rubrics.	
Learners are assessed in flexible multiple ways (self, peer, and teacher; summative and formative; traditional and alternative) to fully capture their performance at different levels.	
The teacher provides reinforcement or enrichment activities as appropriate or as needed.	
The teacher provides timely and quality feedback necessary for achieving the learning outcomes.	
The teacher maximizes appropriate technology in assessing my progress.	
LEARNING ENVIRONMENT	
The flexible learning environment is cooperative and supportive.	
The flexible learning environment promotes open communication between learners and teacher.	
The flexible learning environment has enough technology to achieve learning outcomes.	

The flexible learning environment promotes learners' interest and enthusiasm in learning.	
The flexible learning environment helps learners become relaxed and comfortable.	
The flexible learning environment eliminates learning distractions.	
CLASSROOM MANAGEMENT	
The teacher observes class routines and procedures (e.g., class schedule, checking of attendance, explanation of syllabus).	
The teacher follows the required conduct of synchronous sessions.	
The teacher promotes proper behavior among learners.	
The teacher recognizes each student during class participation or activities.	
The teacher maintains learners' attention and engagement.	
The teacher provides clear instructions for all learning activities.	
The activities are done with very few interruptions.	
TEACHER QUALITIES	
The teacher is knowledgeable in the subject matter.	
The teacher has good communication skills.	
The teacher is presentable and well groomed.	
The teacher exudes positive attitude.	
The teacher has technical skills in using technology.	
Class Observation Rating
